FotoFocus Biennial 2014

ART AND EXHIBITS

Saturday, October 11, 2014, 6:00 PM - 8:00 PM

CCAC is participating in the FotoFocus Biennial 2014 this October, showcasing a diverse group of artists in two exhibitions:

Shedding Light, curated by Jens Rosenkrantz, will highlight the use of Hipstamatic® lenses in photos taken on smartphones. Shedding Light will be on display October 4 – November 5.

Beautiful Deception, featuring installation-based artists Sheri Besso, Ballard Borich, C. Jacqueline Wood, Chelsea Borgman, Richard Fruth, and Sean Mullaney, showcases photography and lens-based work — photographs, film, lenses — in the universal medium they employ. Watch as each artist incorporates principles of light, time and space into their individual works. This show will be exhibited in CCAC's recently renovated Great Hall, where the exhibit is said to be seen best at dusk. Beautiful Deception will be on display from October 4 – November 15.

Admission to both shows is free and open to the public.
