FOTOFOCUS 2012

Regional celebration of photography takes Cincinnati art scene by storm

BY STAFF · OCTOBER 10TH, 2012 · EVENTS

0 Comments      Tags:

As the name implies, FOTOFOCUS was created with the intention of focusing Cincinnati's attention on photography as an expansive, growing and dynamic form of artwork. It's developed into something greater than that, though — an extended festival engaging amateur and professional art-lovers alike in dialogue with hopes of increasing public appreciation for contemporary art and strengthening the bonds between members of the local arts community and those who support it.

We'll be bouncing around FOTOFOCUS events through October and beyond — find an archive of *CityBeat's* FOTOFOCUS 2012 coverage [here](#).

You can also keep tabs on our Arts blog for more FOTOFOCUS tidbits, updated daily [here](#).

Visit the official FOTOFOCUS 2012 website [here](#).
