FotoFocus launching food-centric film and cooking series

by [Movers and Makers](#) • February 2, 2021

FotoFocus invites guests to try their hand at cooking film-inspired recipes with their new “SECOND SCREENS: Foodie Edition” series. FotoFocus aims to bring “Dinner and a Movie” to the safety of your home during this monthly virtual cinematic and culinary experience celebrating food in film.

Each month through May, participants can download a unique, movie-inspired recipe prepared by a local Cincinnati chef to be paired with food-centric films. Films were chosen for their emphasis on food and to celebrate notable film anniversaries in 2021.

Movie schedule and featured chefs:

February: “Big Night” (1996) hosted by **Chrissy Antenucci** of **The Wheel**

March: “Spirited Away” (2001) hosted by **Hideki Harada** of **Kiki**

April: “Willy Wonka & the Chocolate Factory” (1971) hosted by **Frances Kroner** of **Sleepy Bee Cafe**

May: “Amélie” (2001) hosted by **Jean-Robert de Cavel** of **French Crust Café & Bistro, Le Bar a Boeuf, and Frenchie Fresh.**
